

Christine Young – NZSG #21624

I have 40 years of experience in the primary industries, where I also hold a directorship in a private company and 25 years in a financial asset business.

Joined the Matamata Branch in 2006 and became a member of the NZSG in 2007. I have held all the branch officer positions on committee over the years and at present I'm the secretary.

I bring all this experience to the NZSG board which I joined after the 2019 AGM.

My interest in genealogy started when researching and hoping to find my mother's birth family as she was adopted, and to my surprise the results have been nothing short of exciting! I get great satisfaction from helping and seeing the delight from other people when I help them discover an unknown family connection.

My board responsibility is Marketing and I am looking forward to contributing to the governance of the Society and working with my fellow directors.
